

INFORMATION SESSION

creating a presence on campus

Hosting an information session or reception is one of the easiest ways to attract students and establish a corporate presence on campus. These events help you provide students with information about career opportunities in your organization and enable students to ask questions in an informal manner. These information sessions can be exceptionally successful when done in partnership with student organizations and prior to on campus interviews. Typically held at the noon hour or in the early evening between 4:00 p.m. and 7:00 p.m.

PRICE

Information Sessions are \$75. An email will be sent advertising your company's event and it will also appear in the Calendar of Events.
