

Three Ways to Connect with GEICO this week!!!

Monday, April 8th

Information Session – 11:00 to Noon

Location: Career Center

Management Development Program - For Creating Future Business Leaders

With more than 16 million policies in force (and growing), our [Sales](#), [Customer Service](#), [Claims](#) and [Auto Damage](#) departments have been expanding for more than a decade. This has created the need to hire more future business leaders in each key area—that's where you fit in. In this program, you will learn all about one of our major insurance operations and be on the fast-track to management. We'll give you all the tools you will need to succeed. At the end of your program, you'll be ready to manage a team of associates. *Bachelor's degree, preferably in Business or a related field, and a 3.0 overall GPA required.*

Emerging Leaders Program - To Impact the Whole Business

Emerging Leaders gain a holistic view of GEICO's overall business or IT operations through in-depth job rotations. This selective program offers two tracks:

- Operations Management – Learn about our dynamic business from the ground up. In this track, you will rotate through several departments, attend training classes, receive hands-on experience, coach associates, and contribute to company-wide projects.
- Information Technology – You will work with innovative teams and utilize the latest in web and mobile technologies, while developing your own technical, business, and project management skills.

As one of GEICO's Emerging Leaders, you will be mentored by executives, attend leadership conferences, and work on projects that impact our business. Our goal is to develop you into a successful operations manager or IT lead. *Designed for Business, Math, IT and related majors overall GPA of 3.5 required*

Monday, April 8th
